APPENDIX B
HISTORIC PROPERTIES

98PR1631

The enclosed materials contain information on the State and National Registers listings and Registers-eligible properties in the municipality(ies) with which you are concerned. This package contains printouts of historic resources and/or a map or maps that indicate the location(s) of National Register listings.

Enclosed:

X **State/National Registers and Survey Report(s)**

The printout entitled "Survey, SR and NR Listings" is a list of properties on which we have information with an indication of State and National Registers listing/eligibility status. The properties are listed by address. The columns on the right reflect each property's listing or eligibility status.

Also included is a list of the National Register listings in the municipality(ies) arranged by "NR number"; this is the code number that appears next to those properties that are State/National Registers listed. The columns to the right contain State Board for Historic Preservation Action (Approved, Tabled, or Rejected), State Register listing date, National Register listing date, Federal Eligibility date (in cases such as owner objection to a listing, the National Park Service issues a decision that the property is eligible for listing), and date of listing as a National Historic Landmark. This last category is relatively rare.

As we are still in the process of computerizing our records, the complete designation history of most properties *may not* be reflected in this report. This means that the most recent action has been recorded, but that some or all of the preceding steps may not have been entered yet.

____ **MAP(S) of *National Register* listings locations**

This map *does not* include State and National Registers *eligible* properties. It should be noted that *almost all* National Register listings are also listed in the State Register of Historic Places and that there are also many properties that are State Register listed only.

STATE AND NATIONAL REGISTERS PRINT-OUT DATA FIELD DEFINITIONS

Field Name	Definition
MCD Code	A unique numeric label for each minor civil division (MCD) in the state. Codes ending in 39 or lower are towns; 40 and above are cities and villages.
MCD Name	The Name of the minor civil division (MCD).
Cities	Almost always the nearest central place such as a city, village, hamlet or post office; in towns, particularly, this may differ from the name of the geopolitical unit (MCD).
SBHP Vote	Reccomendation of the State Board for Historic Preservation: **(A)**pproved, **(T)**abled, **(R)**ejected, or **(F)**ederal nomination (by agency that owns property, not reviewed by SBHP.
SR Listing Date	The date of listing in the State Register of Historic Places. Properties listed in the National Register before June 23, 1980 were listed in the State Register on that date.
NR Listing Date	The date of listing in the National Register of Historic Places.
Fed Elig Date	The date on which the National Park Service determined the nominated property/ies eligible for National Register listing. This action occurs in cases where a majority of property owners in the proposed listing object to National Register listing.
NHL Date	The date of designation as a National Historic Landmark. Properties so designated are automatically listed in the National Register if not already so listed.

SURVEY/INVENTORY PRINT-OUT DATA FIELDS

FIELD	DEFINITION
Unique Site Number	A numeric label assigned to surveyed/inventoried properties. The first five digits are the minor civil division (MCD) code of the property's location; the numbers following the period are accession numbers.
Street Number} **Street Name }**	The property's address.
Building Name	The name, if any, of the property.
PR Determ-ination	State and National Registers eligibility decision rendered as part of the review of a state or federally financed or licensed undertaking.
Survey Determ-ination	State and National Registers eligibility decision rendered in evaluation of an organized survey of historic resources.
NR #s	Code number of State and National Registers listing(s) of which the property may be a part.

NB: Your pintout may not contain all relevant dates that **precede** the entry for a particular listing's current status. For example, many properties that are State **and** National Register listed have only the National Register listing date entered. The right-most filled-in column reflects the listing's current status. It should also be noted that your printout may not include all fields defined above.
