

Sustainable Orange

February 29th 7pm

**Orange County Emergency Services Building
22 Wells Farm Road, Goshen, NY 10924**

The Orange County Department of Planning invites municipal representatives, professionals and other interested stakeholders to learn how municipalities can become more sustainable. Three topics include:

Smart Growth Toolkit- Orange County, in collaboration with the Regional Plan Association (RPA), the City of Newburgh, the Town of Warwick, and the Village of Warwick has prepared a smart growth toolkit of best management practices for the full range of local governments (counties, cities, villages and towns), using the U.S. Green Building Council (USGBC) Neighborhood Development standards, Leadership in Environmental and Energy Design (LEED®) for Neighborhood Development (LEED ND) Floating Zone, the award-winning Orange County Design Guide and other best practice resources from around the region and the nation.

Energize- Energize NY leverages PACE (Property Assessed Clean Energy) financing to help commercial and non-profit property owners undertake deep energy improvements. Projects include energy efficiency and renewable energy for commercial, multi-family, light industrial and nonprofit owned buildings.

Solarize- Solarize Hudson Valley is a regional campaign to make it easier and more affordable for households and small businesses to go solar. Combining the power of community education with a smart group purchasing strategy, Solarize helps everyone learn about solar technology, benefits, choices and financing options.

Dear Supervisor/Town Board:

The Building Department has received a written request from David Greene requesting a return of a permit fee of \$75.00 for a part of permit number 24636 that was issued for a greenhouse, shed & generator. The greenhouse will not be built. The Building Department suggests a refund for the portion of the permit fee in the amount of \$75.00.

Sincerely,

Wayne Stevens
Building Inspector
