STANDARD AGREEMENT for PROFESSIONAL SERVICES
(SHORT FORM)

This is an Agreement made as of June 8, 2016 between Town of Warwick of Orange County, (Hereinafter called the CLIENT), and LABERGE GROUP, 4 Computer Drive West, Albany, NY 12205, which is a Corporation registered in the State of New York (hereinafter called LG).

A. CLIENT and LG, for the mutual consideration hereinafter set forth, agree as follows:

Preliminary Engineering Report in support of a 2016 Round 2 NYS Water Grant.

B. CLIENT agrees to pay LG as compensation for services as follows:

\$4,000 plus reimbursable expenses.

C. CLIENT agrees to pay LG a retainer with this Agreement of \$ 0.

CLIENT, shall reimburse LG for the actual cost of all travel-related expenses (including, but not limited to meals, lodging, transportation) for project related work performed away from LG's offices. CLIENT shall reimburse LG for other project related expenses, including, but not limited to, reproduction costs, delivery, field related costs, all at charged rates. Other expenses include, but are not limited to, outside consultants, materials testing, application and permit fees. All expenses shall be invoiced at cost plus a 20% service fee for handling and administration.

Fees and other charges will be invoiced monthly. The amount of each invoice shall be due at the time of billing. When bills are not paid within 30 days, a late payment service charge will be charged on any unpaid balance at the rate of 1.5% compounded monthly (annual rate of 18%) or the highest rate allowable under applicable State Law, whichever is higher.

D. CLIENT shall furnish the following:

Information in client's possession relevant to completing the services requested.

E. This Agreement includes the Standard Terms and Conditions shown on pages 2 & 3 of this document and are incorporated herein by this reference.

F. The person signing this Agreement warrants he/she has authority to sign as, or on behalf of, the CLIENT. If such person does not have such authority, it is agreed that he/she will be personally liable for all breaches of this Agreement, and that in any action against them for breach of such warranty, a reasonable attorney's fee shall be included in any judgment rendered.

Re: Ordinance 16-14- An Ordinance Of The Township Of Vernon, County Of Sussex, State Of New Jersey Authorizing Correcting The Zoning Map For Block 141 Lot 12.02 To Be Included In The C-3 Zone.

To Whom It May Concern:

Enclosed please find a copy of Ordinance 16-14- An Ordinance Of The Township Of Vernon, County Of Sussex, State Of New Jersey Authorizing Correcting The Zoning Map For Block 141 Lot 12.02 To Be Included In The C-3 Zone.

Please be advised that a public hearing on this Ordinance will be held on June 27, 2016 at 7:30 pm in the Municipal Building, 21 Church Street, Vernon, NJ 07462 at which time all persons interested shall have an opportunity to be heard.

If you have any questions or concerns, please do not hesitate to contact this office.

Very truly yours,

Lauren E. Kirkman, RMC, CMR
Township Clerk

TOWNSHIP OF VERNON

NOTICE

TAKE NOTICE that Ordinance 16-14 published below was introduced at a regular meeting of the Township Council of the Township of Vernon on May 23, 2016, and will be considered for final passage after public hearing at a regular meeting of the Township Council of the Township of Vernon to be held on June 27, 2016 at 7:30 pm at the Municipal Building, 21 Church Street, Vernon, New Jersey.

**AN ORDINANCE OF THE TOWNSHIP OF VERNON, COUNTY OF SUSSEX,
STATE OF NEW JERSEY AUTHORIZING CORRECTING THE ZONING MAP
FOR BLOCK 141 LOT 12.02 TO BE INCLUDED IN THE C-3 ZONE**

WHEREAS, the Township of Vernon maintains a zoning map to delineate which zone a property is placed in; and

WHEREAS, Block 141 Lot 12.02 is split on the current zoning map in the R-4 and C-3 Zones; and

WHEREAS, Ordinance 88-11 indicates that Block 141 Lot 12.02 should be in the C-3 Zone; and

WHEREAS, from time to time, adjustments are made on the zoning map; and

WHEREAS, the Land Use Board has recommended correcting the zoning map; and

WHEREAS, the Township Council is in agreement with the recommendation of the Zoning Board.

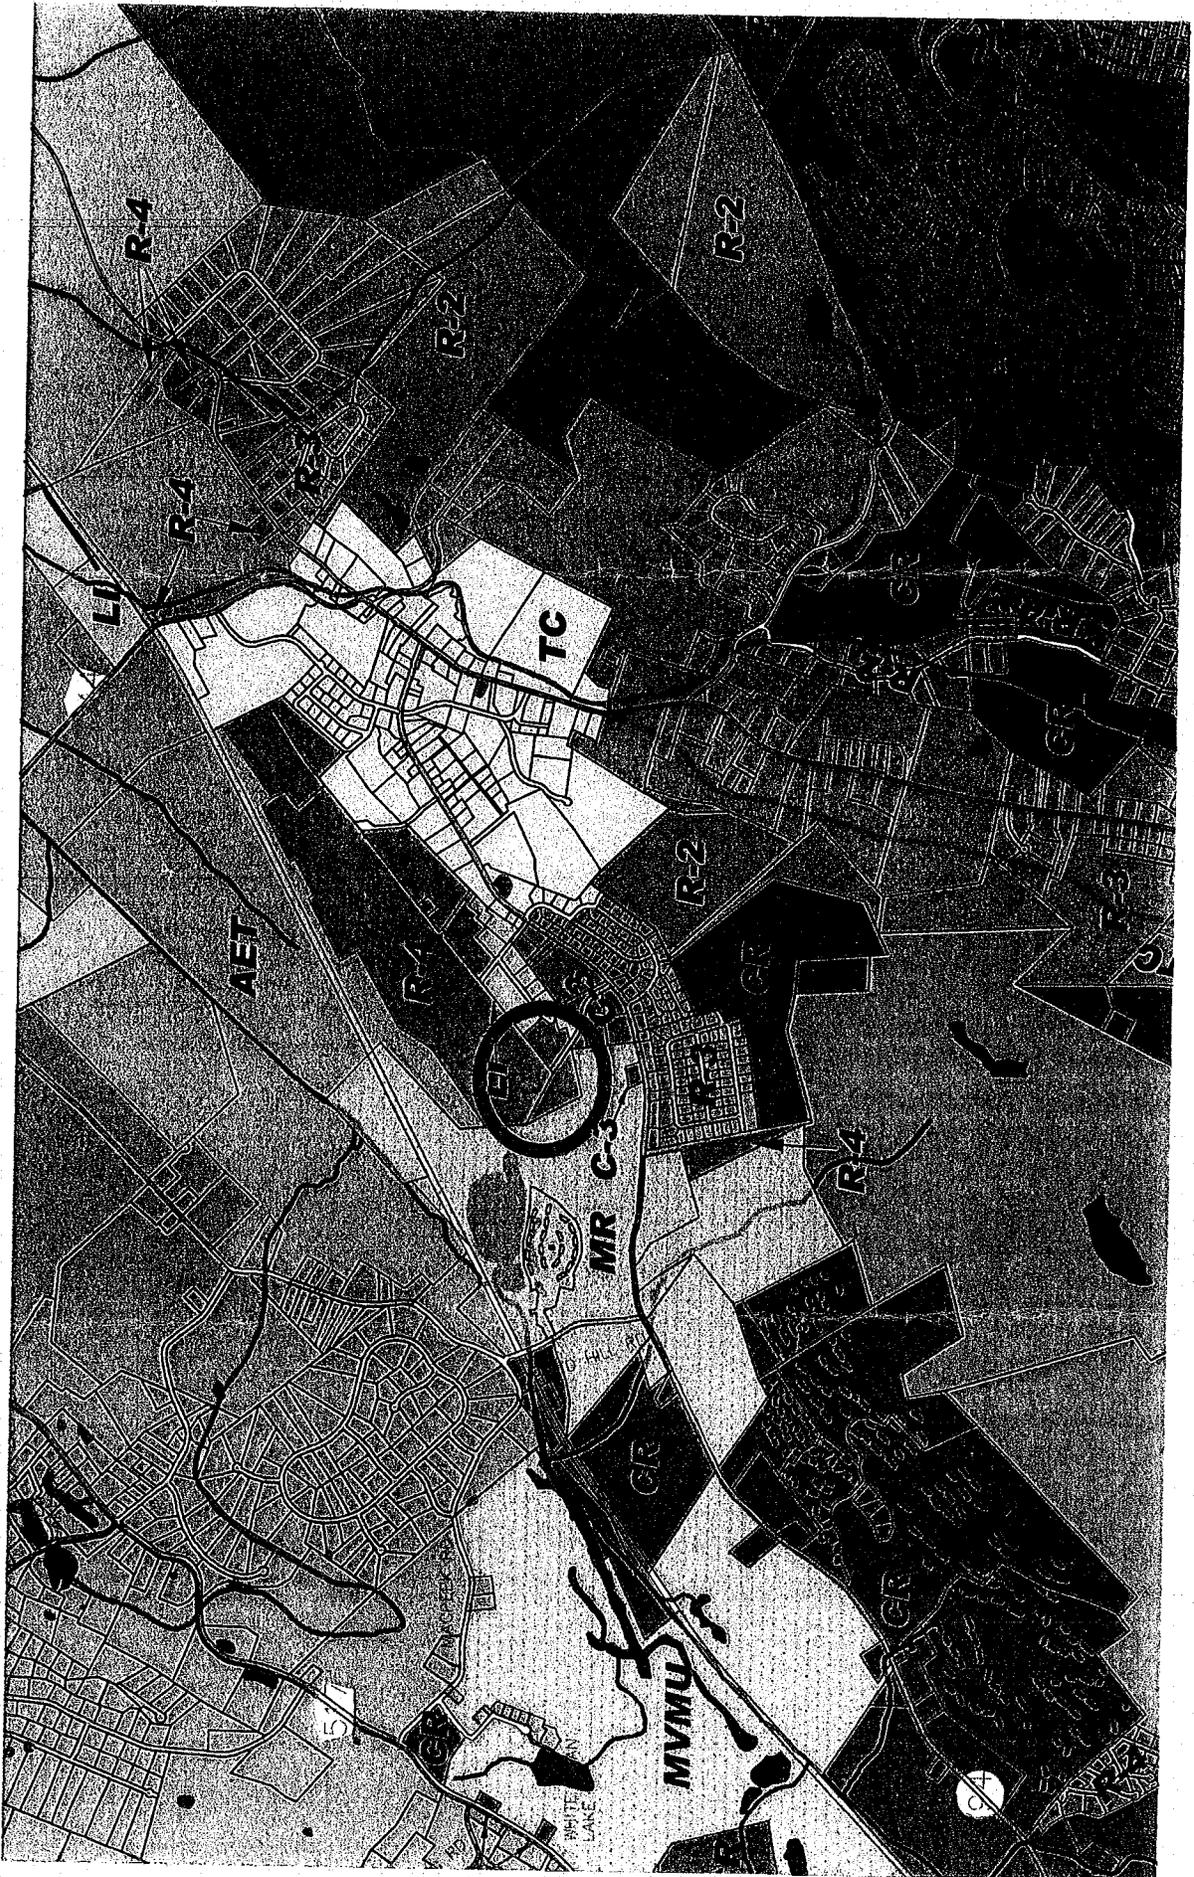

NOW THEREFORE IT BE ORDAINED that the zoning map of the Township of Vernon shall be corrected to indicate that the property identified as Block 141 Lot 12.02 shall be included in the C-3 Zone.

NOW THEREFORE IT BE FURTHER ORDAINED by the Township Council of the Township of Vernon that the Municipal Clerk is directed to take appropriate steps so that the new zoning map is filed and the tax maps of the Township of Vernon are amended accordingly.

Effective Date.

This Ordinance shall take effect upon final passage and publication as provided by law.

Lauren Kirkman, RMC-CMR
Township Clerk

May 26, 2016

Dear Community Leader/Elected Official:

The New York State Public Service Commission is sponsoring public statement hearings regarding increases to water rates proposed by Suez Water New York (SWNY), formerly United Water New York. The Company is requesting new rates to be effective beginning February 1, 2017.

To ensure full public participation, the Commission will hold informational sessions and public statement hearings to solicit input and comments from your community regarding SWNY's proposal. At the informational session, Staff of the New York State Department of Public Service will provide an overview of the rate case process and representatives of SWNY will describe their proposal. The information sessions will be immediately followed by public statement hearings. Information received at the public statement hearings will be transcribed and will be included in the case record. The public comments will be considered by the Commission in deciding these cases. The Commission may adopt or reject SWNY's proposal in whole or in part.

The enclosed fact sheet provides detailed information on how to participate in the public statement hearings and available options to submit comments on the proceeding. Information about the proceeding can be found at the Commission's www.dps.ny.gov web site. From the homepage, click on "Search," and enter any of the case number (16-W-0130) in the "Search by Case Number" field.

I would appreciate your assistance with informing your constituents about the public statement hearings and encouraging them to provide comments. It is the Commission's intent to facilitate and encourage active and meaningful participation throughout all of its proceedings. We hope you will consider joining us at one of these hearings.

Sincerely,

Michael Corso
Consumer Advocate and Director,
Office of Consumer Services

Enc.

Methods for Commenting on the Case

All comments can be submitted at the public statement hearings held on June 15 and 16, 2016 or through the methods below:

- **Via Mail/E-Mail:** Submit comments electronically to Kathleen H. Burgess, Secretary, at secretary@dps.ny.gov or by mail or delivery to Secretary Burgess at the Department of Public Service, Three Empire State Plaza, Albany, New York 12223-1350. Comments delivered in these manners should reference "SUEZ Water New York, Inc. Rate Case" (16-W-0130).
- **Via the Department's Website:** Comments may also be entered directly into the case by locating the case via the home page of the Commission's website, www.dps.ny.gov, by clicking on "Search," and entering the associated case number (noted above) in the "Search by Case Number" field. After clicking to open the case, enter comments in the "Post Comments" section located at the top of the page.
- **Via Toll-Free Opinion Line:** Individuals may choose to submit comments by calling the Commission's toll-free Opinion Line at 1-800-335-2120. This line is set up to receive in-state calls 24-hours a day. Callers should press "1" to leave comments about Case 16-W-0130 "SUEZ Water New York Inc.". Comments received via the Opinion Line are not transcribed, but a summary is provided to the Commission for their consideration.

Comments submitted via these alternative means will be accepted at any point while this proceeding is pending, but are requested by June 17, 2016 to ensure full consideration. All comments will become part of the record considered by the Commission.

Warwick Town Clerk

To: Winter, Neil L. Jr.
Subject: O&R: NEW PROJECTS, ENERGY EFFICIENCY DESIGNED TO BEAT THE HEAT - Orange/Sullivan

PEARL RIVER, NY June 2, 2016--- Orange & Rockland (O&R) today said it is prepared to meet high summer demand for electricity with continued investments in projects that improve electric service reliability and the further development of energy efficiency programs that help customers use less energy, save money and reduce their carbon footprint.

To prepare for this summer’s peak demands for electricity, O&R is making investments totaling nearly \$120 million this year to fortify and improve the reliability of its electric system. That investment builds on the nearly \$840 million O&R has invested over the past 10 years on electric system maintenance and reliability projects.

Several operational steps --- from pro-active system maintenance and construction to close monitoring and fast reaction to heat-related electric system concerns on high heat days --- also play a critical role in the safe and reliable delivery of electric service.

These steps also include line clearance work in the form of specific tree-trimming projects, infrared inspections and transmission line patrols and distribution equipment testing and inspections.

O&R also is pursuing a strategy the company adopted in the wake of Superstorm Sandy to provide additional storm protection at specific key electric system locations. Those electric system improvements include building additional electric circuits and undergrounding system-critical locations where multiple overhead circuits are present on distribution poles.

Further, O&R will continue the installation of recloser switches throughout its electric distribution system. These devices divide circuits into smaller segments, reducing the number of customer affected by outages. They also provide a communication channel for remote reporting of operating conditions and remote control to address specific operations issues when they develop

Since last summer, new projects designed to further enhance electric system reliability, especially during high summer demand, have been built and will be ready for operation this summer.

Those projects include:

Ramapo to Rock Tavern Transmission Project - This project includes a new 345kV transmission line that extends 27.4 miles from an existing substation in Ramapo to an existing substation in New Windsor, and upgrades at the connecting substations. This line (which includes a 15.5-mile O&R portion) will improve electric service reliability by increasing power flows from upstate to downstate, and, through a new substation on Sugarloaf Mountain in Chester, will increase power flow directly into O&R’s service territory. This project, which is now operational, is owned by New York Transco. New York Transco is a member-owned company that includes Con Edison Transmission, LLC, a subsidiary of Consolidated Edison, Inc.; Grid NY, LLC, a subsidiary

of National Grid PLC; Avangrid Networks New York Transmission, LLC, a subsidiary of AVANGRID, Inc.; and Central Hudson Electric Transmission, a subsidiary of CH Energy Group, Inc.

Blue Lake Substation – Located on the former site of the King’s College in the Town of Warwick, this new substation will serve the new Watchtower Group facility and electric demand in Warwick, Tuxedo, Sloatsburg and Ringwood. This station became operational May 25.

Shoemaker Substation Upgrade – This new project completed a major overhaul of this key substation, updating or replacing a wide array of internal operational equipment at the facility. This work was designed to enhance electric service reliability in much of O&R’s western Orange County service area as well as O&R’s Sullivan County and Pike County, Pa. service areas. These improvements were completed May 22.

Electric bills are expected to be slightly higher this summer than last. The typical O&R residential customer in Orange County using a consumption average of 600 kWh of electricity per month is expected to see that monthly bill rise 0.9 percent this summer as compared to summer 2015. A summer 2015 bill, which consists of both electric supply and delivery charges, for a typical Orange residential customer was \$130.26. That bill in summer 2016 is expected to increase a little over one dollar to \$131.39.

Energy Efficiency and Conservation

To help its customers use electricity this summer as prudently as possible, O&R is promoting a number of energy efficiency programs for residential, small business and commercial and industrial customers.

Chief among those programs is O&R’s online store, My ORU Store www.myorustore.com, a digital marketplace that offers O&R’s residential customers a wide variety of energy-saving products. Those products include LED lighting packs, water conservation products, advanced power strips and smart thermostats --- all designed to make saving energy and money both easy and affordable.

O&R developed this program to more closely align its energy-efficiency efforts with the New York State Public Service Commission’s (PSC) “Reforming the Energy Vision” initiatives to modernize the state’s energy utility industry. Among those initiatives are programs to motivate and empower customers to better understand and take control of their energy use.

For example, through the store, eligible New York customers can receive an instant rebate of up to \$48 on energy-saving products and can receive a further rebate of \$85 when they enroll their smart thermostat in O&R’s innovative Bring Your Own Thermostat program.

Since 2009, O&R has helped residential and business customers save more than 88,000 megawatt hours (MWh) of energy and 21.3 megawatts (MW) of peak demand by implementing a suite of energy-efficiency programs.

The energy saved by O&R’s electric and gas programs during that period has reduced carbon emissions by 32,000 tons, or the equivalent of taking 5,300 cars off the road.

What can consumers do to help ease unpredictable bills?

O&R offers a level-payment program to customers called Budget Billing.

New Functionalities & Data; Benchmarks and a Big Welcome!

The NY Department of State Office of Planning & Development's Geographic Information Gateway ([Gateway, http://opdgig.dos.ny.gov/index.html#/home](http://opdgig.dos.ny.gov/index.html#/home)) and its Team had a notable April and May!

Information Changes

On April 7th we officially kicked off the next phase of our Gateway development with our partners at Stone Environmental and the Gateway Team has been working hard on updates, expansions and improvements. We have improved functionality of the map viewer by adding an address geocoder in the upper left of the map viewer window so users can now type in an address and zoom to the location. Ten new datasets showing "communities at sea" have been added. Communities-at-sea were developed by Rutgers University and use NOAA National Marine Fisheries Service information and represent maps of "community", or ports, presence in the offshore Atlantic. We have also added 7 new layers of Automated Information System (AIS) data from 2013. AIS data is collected from all vessels over 65 feet in length and can be separated into vessel types, e.g. Cargo, Passenger, Tanker, etc. The Living Shorelines story, found on the Climate Change & Resilience focus page has been updated to include two projects on the Niagara River.

Perhaps the biggest information addition of the Department of Environmental Conservation's tidal wetland maps and boundaries. Users can add the tidal wetland map index grid and/or the tidal wetland areas (polygons) to the map viewer, click on either a map index grid or a wetland area, and a call-out balloon opens providing a link to preview the map image and a link to download the map image. We were very happy to work with DEC in providing another means of accessing this information. These new layers and access to map images can be found either by using the search tool or browsing to: Physical Environment/Estuarine.

Benchmarks

Today, May 26th the Gateway <http://opdgig.dos.ny.gov/index.html#/home> exceeded 8400 unique visitors. It has received visits from 67 countries outside the US and 48 states and two US territories, Guam & Puerto Rico. Over 600 hours have been spent by users on the Gateway during the 8 months since its launch on September 29th 2015.

Busy Month

May has been another busy month for Gateway staff. On May 4th the Gateway was presented at a Department-wide (DOS) Lunch and Learn session. May 20th we used the Gateway to present resilience tools available to communities attending a Land Use Leadership Alliance Training co-hosted by Touro Law and Pace University. And on May 24th the Wildlife Conservation Society (WCS) hosted an Ocean Planning event at Columbia University, where the Gateway was presented/demoed and nearly 60 participants were directed through an interactive exercise using the Gateway.

WELCOME!

Last but certainly not least! At a recent NOAA Coastal Management Fellow matching workshop we found an excellent new Coastal Fellow who will be joining the Gateway Team sometime in August. Alex Kuttesch will be helping us add two major functionalities: developing crowd-sourcing functionality and interactive wiki-style mapping. Alex comes to us from Virginia Commonwealth University with a Masters in Urban and Regional Planning, worked with Buffalo Niagara RiverKeeper and earned his BS from SUNY ESF in Environmental Studies. We warmly welcome Alex and are very excited to have him on board very soon!

For more information about the Gateway contact Jeff Herter (contact info on next page).
