Name of Action: Proposed World Headquarters of Jehovah's Witnesses

Description of Action: The applicant has requested approval from the Town of Warwick Planning Board for locating the world headquarters of Jehovah's Witnesses to a tract of land, formerly owned by the International Nickel Company (INCO), which used for metallurgical laboratories and a pilot alloying facility. The proposed World Headquarters will provide space for a religious administrative campus comprised of approximately 8 buildings along with several accessory site structures constructed on approximately 45 acres of the 253-acre site. The proposed project is intended to relocate the offices of the Governing Body of Jehovah's Witnesses and various supporting departments and committees from Brooklyn, NY to a rural setting in closer proximity to the two upstate facilities in Shawangunk, NY and Patterson, NY. The proposed project is to be an integrated working and living facility, initially for approximately 850 members of the Worldwide Order, although sufficient construction is

planned to allow this number to eventually grow to 1,000. These individuals will work and live on site. For this reason, virtually no commuter traffic will be generated by the proposed project.
