Town of Warwick

Press Release

Town of Warwick will host a panel discussion on the evolving state of the Solar Industry in NYS.

The Solar Industry is evolving to meet Governor Cuomo's Reforming the Energy Vision goal of New Yorkers' receiving 50% of their energy needs from Renewable sources by 2030. Warwick, as a SolSmart Gold designee is proud to hold a discussion by experts in the solar field on January 22, 2018 at 7 pm in the Warwick Town Hall.

Panelist include (tentative):

Houtan Moaveni is currently serving the dual role of the Deputy Director of NY-Sun Initiative and New York State Distributed Generation Interconnection Ombudsman at New York State Energy Research and Development Authority (NYSERDA). He is an accomplished energy and utilities professional with over 10 years of experience in solar energy systems design, analysis and operation. He has successfully managed multi-million dollar solar programs, supporting the U.S. Department of Energy (DOE), electric utilities, state public utility commissioners which has resulted in receiving several awards over the years.

Jeff Irish is the founder and President of Hudson Solar, a Rhinebeck, New York-based, family-owned and award winning business serving upstate New York. Hudson Solar designs and installs solar systems for residential, commercial, agricultural, municipal, and non-profit organizations. Hudson Solar is a proud employer of military veterans. The company has installed over 1,600 solar systems for homeowners, more than 25 schools including Vassar College and Excelsior College, government agencies such as the U.S. Army, and well-known corporate clients including Arnoff, Kiss My Face, Selux, Healey Dealerships and Garelick Farms

Eric Will is the New York Area Manager for Geronimo Energy. Geronimo Energy is a leading independent North American renewable energy development company based in Minneapolis, MN.

For Release 9 a.m. EDT, January 5, 2018

more

Geronimo provides renewable electric energy development solutions for utilities, Independent Power Producers (IPPs), corporations and public entities looking to harness renewable energy for business growth. With deep and comprehensive expertise in wind and solar energy development, Geronimo's resume boasts over 1,600 megawatts of U.S. wind and solar energy projects that are either operational or under construction. Geronimo's near term development pipeline has an aggregate nameplate capacity exceeding 2,000 megawatts of additional clean energy.

Date: January 22, 2018
