

As part of Operation Clean Sweep

Sustainable Warwick will be collecting appliances that use refrigerants and covering all expenses for them to be properly recycled. This service is available to everyone in the Warwick Valley, and covers items such as refrigerators, window air conditioners, dehumidifiers, water coolers, and mini-fridges. We'll also accept canisters of refrigerants.

Look inside

locations
and dates.

This year the refrigerant recovery work will be performed pro bono by Hudson Technologies, one of the largest refrigerant reclaimers in the United States.

We want to thank the following officials, companies and individuals for their support of the Coolest Recycling Drive:

Supervisor Jesse Dwyer and the Town of Warwick
Mayor Daniel Harter and the Village of Florida
Mayor Matt Buckley and the Village of Greenwood Lake
Mayor Michael Newhard and the Village of Warwick
The Warwick Valley Chamber of Commerce

Sustainable Warwick is a fiscally sponsored project of Community2gether

The COOLEST RECYCLING DRIVE of 2024

Let us help you safely recycle your refrigerant-containing appliances and protect the planet!

Why?

We want to help everyone properly recycle their refrigerant-containing appliances.

The chemicals used as refrigerants are engineered and industrially produced to be able to transfer heat when trapped in a pressurized system. When these chemicals are released into the atmosphere, they become greenhouse gases that are thousands of times more powerful than carbon dioxide. The refrigerant used in most window air conditioners is R410A. If 2.5 pounds of R410A are released to the atmosphere, over the next 20 years they will act like 11,000 pounds of carbon dioxide, or roughly the same emissions of driving the average car for a full year. **A single air conditioner can hold up to 2 pounds of R410A**, so we want to help everyone properly recycle their refrigerant-containing appliances.

We offer this service for free, but gladly accept donations.

A single air conditioner can hold up to 2 pounds of R410A.

When and Where

Drop-off events will be held at the following locations and times:

Monday, April 22nd

3 to 7 PM at **Warwick DPW***
63 Public Works Rd, Warwick, NY 10990

Thursday, April 25th

4 to 6:30 PM at **Florida Village Barn**
Maple Ave, Florida, NY 10921

Saturday, April 27th

9 AM to Noon at **Warwick DPW***
(Operation Clean Sweep hours)
63 Public Works Rd, Warwick, NY 10990

Saturday, April 27th

1 to 4 PM at **Greenwood Lake Village DPW**
70 Elm St, Greenwood Lake, NY 10925

Please do not leave appliances at those locations at any other time!

***Note we will only accept full-size refrigerators at the Warwick DPW drop-off events.** For residents who cannot deliver their appliance to one of the drop-off events, special efforts will be made to schedule a visit to their home to pick up the appliance. Use this QR code to request a home pickup:
