**Town Of Warwick** Comment as Town Of Warwick

**Lois Edmonston Karlin**  
Audio and video quality is abysmal for such an important 'public' meeting. I believe I missed more than a third of what was said. Why isn't the town gathering comments from communities of color about their experience with our police? I know that in general Black and brown people are very much afraid of police, and I'd like to hear comments from them, from an anonymous survey, perhaps.

Barbara Dash Bald it's because when they do have  
to shoot it's because someone's life is in danger of  
being lost. It's not like the movies that when  
someone gets shot, they fall on the floor and don't  
move. They literally keep coming after many bullets  
have penetrated the body. Unless they get a head  
shot or heart, the person is not stopped.

A starting salary with benefits of 120K for new officers in Warwick seems a fair wage. But more training, especially around personal and systemic racial biases makes great sense.

From EO 203. Where is this meeting specifically focussed on the mandate of the EO? "The political subdivision, in coordination with its police agency, must consult with stakeholders, including but not limited to membership and leadership of the local police force; members of the community, with emphasis in areas with high numbers of police and community interactions; interested non-profit and faith-based community groups; the local office of the district attorney; the local public defender; and local elected officials, and create a plan to adopt and implement the recommendations resulting from its review and consultation, including any modifications, modernizations, and innovations to its policing deployments, strategies, policies, procedures, and practices, tailored to the specific needs of the community and general promotion of improved police agency and community relationships based on trust, fairness, accountability, and transparency, and which seek to reduce any racial disparities in policing.

Such plan shall be offered for public comment to all citizens in the locality, and after consideration of such comments, shall be presented to the local legislative body in such political subdivision, which shall ratify or adopt such plan by local law or resolution, as appropriate, no later than April 1, 2021..."

So the officers are supposed to be killed when a man is charging them with a knife and doesn't drop it. Are you aware knives can go through vests?.Smh. It takes seconds for a perpetrator who is running towards an officer to kill them. This is why you have NO clue. Until you have done this job your opinion means nothing. And secondly the officer was cleared in a Grand jury and trial by 12 jurors.

We must acknowledge the epidemic of extra judicial killings and woundings of innocent Black and Brown lives and embrace this opportunity for dialogue and reform so that we as a community can support our police as they look internally to root out racial bias. We need to do this in schools as well and in all other s entities of taxpayer-funded government to assure safety, fairness and justice for all of us. It's not anti -police, anti -teacher.
