

LETTER OF NOTIFICATION

Date: February 6, 2023

Re: Proposed Lake Management Program – Greenwood Lake

The Village of Greenwood Lake is implementing a Lake Management Program for 2023. The Program will focus on herbicide treatments to control excessive aquatic weeds, specifically Eurasian Watermilfoil (*Myriophyllum spicatum*), water chestnut (*Trapa natans*), and Fanwort (*Cabomba spp*). The proposed treatment areas are the northwestern and northeastern coves. See map below.

The Program is being carried out by licensed applicators of the lake management firm, SOLitude Lake Management, registered with the New York State Department of Environmental Conservation (No. 16506). NYSDEC Aquatic Pesticide Permit applications have been submitted requesting approval for the application of the herbicides Rodeo (glyphosate), ProcellaCor EC (florpyrauxifen benzyf), and Clipper (Flumioxazin) as well as, the algicide Cutrine Plus (copper).

Lake treatments are anticipated to occur between April 1 and September 30, 2023 and will proceed only after the issuance of NYSDEC permits. The aquatic pesticide treatments will only be conducted if sufficient aquatic vegetation is present to warrant treatment and favorable weather conditions exist. Prior notification of the exact dates of treatment will be provided to the Village of Greenwood Lake and NYSDEC prior to treatment and by shoreline posting on the day of application. Water use restrictions can be found in the chart below.

Product labels are available for review on the SOLitude Lake Management website, www.solitudelakemanagement.com/product-labels-new-york-updates. The lake shore will be posted at the time of treatment indicating the applicable water use restrictions. In the event that you, as a riparian owner or vested riparian user, have any questions or objections to the proposed program, please contact the following agency in writing within 21 days of receipt of this notice. Lack of comment will be considered consent to the treatment and water use restrictions.

NYSDEC Bureau of Pesticides, Region 3
 21 South Putt Corners Road
 New Paltz, NY 12561-1696

WATER USE RESTRICTIONS

Product	Swimming	Fishing	Livestock Watering	Drinking	Irrigation
ProcellaCor EC	None	None	< 1ppb	< 51 ppb	< 1 ppb for greenhouse and nurseries
Clipper	None	None	None	< 51 ppb	5 days
Cutrine Plus	None	None	None	< 201 ppb*	None
Rodeo	None	None	None	< 51 ppb	None

***This potable water threshold will not be exceeded by the application, so potable water use restrictions will not apply.**

If you need further information regarding treatments, require notification of exact date of treatment, or require hard copies of the product labels, please contact the Village of Greenwood Lake 845-477-9215 or SOLitude Lake Management at 888-480-5253 during business hours.
